

An aerial photograph of the Woodway Beach Club, a large yellow building with a brown roof and multiple dormers, situated on a sandy beach. The building has several blue and white striped awnings extending over the beach area. Numerous blue lounge chairs and white tables are set up on the sand. In the background, there are green trees and a view of the city of Stamford across the water. The sky is clear and blue.

The Umbrella Club

The Umbrella Club was established over 40 years ago as a non-profit, 501(c)(3) organization. We are 60 volunteer members who donate time, energy and resources to help local families. Our volunteer structure allows over 90% of every dollar raised to go directly to our mission. Since 1979 we have provided over \$5,000,000 in assistance.

Our Mission: is to provide compassionate financial support to children with complex health needs in and around Fairfield County.

The challenges and impacts on families are significant and multifaceted. These expenses can include direct costs, such as **medical bills, medications, and special equipment**, as well as indirect costs, such as lost income due to **reduced work hours or job loss, travel expenses** for medical appointments, and the **emotional and physical toll of caregiving**.

Endless Summer on The Sound

The Annual Endless Summer On The Sound Beach Party is the final fundraising event held each year to support these efforts

Endless Summer in 2025 At-A-Glance:

Over \$380,000 raised due to the support by 24 sponsors and more than 300 attendees

One family that has been directly impacted by the generosity of Endless Summer supporters shared their update with us in 2025

WHO NEEDS HELP?

THERE ISN'T ONE DISEASE, THERE ISN'T ONE CURE, THERE ISN'T ONE REMEDY

The children we help face different challenges, complex health issues that can't be fixed with one solution. Their families are facing years, or in many cases, a lifetime of support.

This is why the Umbrella Club provides financial assistance for children affected by all types of medical issues.

a 2-year-old recently diagnosed with B-Cell Acute Lymphoblastic Leukemia, undergoing weekly chemotherapy, frequent blood draws, and a recent bone marrow biopsy at Yale-New Haven, with an upcoming clinical trial for a new medication.

a 12-year-old with an extensive and severe medical profile including spina bifida, cloacal exstrophy, chronic lung disease, pulmonary hypertension, and a tracheostomy. He requires 24/7 care with a ventilator, suction machine, and other specialized equipment, and is non-ambulatory and wheelchair-bound.

a 2-year-old with an active brain tumor, Williams Syndrome, and hypocalcemia, leaving him developmentally delayed, non-verbal, and reliant on chemotherapy, special formula, and ongoing cardiac/renal monitoring.

a 7-year-old with Down Syndrome and significant complex medical needs stemming from extreme prematurity, including mobility limitations requiring a wheelchair and walker, chronic respiratory issues managed with a nebulizer, percussion vest, and sleep-safe oxygen bed, and ongoing care from an ENT, pulmonologist, cardiologist, and neurologist.

a 15 year old with severe lupus that has caused near-end-stage kidney failure (Stage 4 of 5), with irreversible scarring and structural damage to her kidneys, uncontrolled high blood pressure, and related hormonal complications.
